me, I remmin yours,

me, I remain yours,

Fred C. Neiman.

The above was turned over to the Cleveand police this afternoon.

They are working hard to gain some information regarding the family and associates of Czolgosz.

The police have interrogated the Kulghts of the Golden Engles, but will not divnige what information they gained.

what information they gained.

"It is my opinion." said Chief Corner today, "that the sheeting of the chief executive is not the result of a plot. I be fleve that (Zoolgozz went to Buffalo on a different extand and while there decided to shoot the president. We are working on the case and if he had any occomplies they will be brought to instice."

It has been learned that without a doubt Czolgosz was an anarchist and was a member of an anarchist choa named "Sila," which means "Force," The cub met at the corner of Tod struct and Third avenue, it disbended three years ago, but Czolgosz joined another.

Rev. Benedict Rosinski, pustor of St.

Stanishus church, stated that he knew the man. He said that Czolgosz has admitted to him that he was an anarchist

mitted to him that he was an anarchist. "About four years ago," said Resinski, "I saked Crologs for a contribution for the church. He surprised me very meen by refusing to give it. I asked him why he would not contribute and he said he was an anarchist. He said that anarchy was his religion." "Crologic made no secret of the fact that he was an anarchist." said Anon Swolinski of No. 2102 Breadway gireet today. "He was always tiking about at and trying to force anarchistic principles on every one whom he talked to. He was a zeed coward however, and I am surprised that he had the nerve to do as he fid. It would not surprise me to learn that he is merely the tool of some other persons." retainent members of the Golden Eagles over that it is purely an insurance in-tion and that its members in general, " un sympathy with the anarchism of

# A CHANCE FOR TEXAS.

How Land Owners Can Advertise at Springfield, Ill.

To the Editor of The Post. Springfield, Ill., September 3. Space to make an exhibit of rice and other profucts of Texas and Louislana can be had in agricultural hall at the State fair grounds In this city, if we want it, without cost, This is liberal on the part of the fair management. At the lowe State fulr we paid for space. Will the large fand owners and land agents of Texas and Louisiana join

The State fair opens here on the States manded.

The State fair opens here on the States manded.

The State fair opens here on the States manded.

The State fair opens here on the States flatent and closes October 5. This fair is well attended from all over the State and many come from adjoining States. The tair grounds here consist of 160 acres. The main buildings are built of stone, brick, iron and glass. Everything done in the way of building is substantial, and up-to-dote, Space can be had, as I have said, free and the question to decide is do we want fit?

The Sunset-Central lines have advertised Texas and Louislana larely at the Okiahoma tush; also at the lows State fair at considerable expense. This kind of work in addition to the regular everydar advertising done by the company for the States named without any assistance to speak of from those who own large tracts of land on and tributary to the lines is not at all encouraging, especially so as the owners of these lands as a rule take the price of their land just as this kind of work is done by the railroad. This coming fair would be a good opportunity to call the attention of the people up here to the rice industry of the coast country; also to the beef belt of Texas. Those who own large fracts of land suit/fible to stock farming would do well to come here if they wish to dispose of their land, but they should bring with them a carload of good Texas raised stock—stock grown on \$2 to \$10 per acre land—and give the Hilmols farmers a chance to compare our Texas stock, high priced land and long, cold wanters.

In the adjoining county to this, which is the stock is the based of the land and long, cold wanters.

his stock, high priced land and long, cold winters.

In the adjoining county to this, which is Macon county—Decatur is the county—bas leen paid for Louisiann rice lands by about 120 farmers during the past few years. Over half of these men are living on their land, raising rice and making good money; the others have rented out their land to men who pay them about 80 per acre for the use of the land, or two sacks of rice per acre, which averages about 83 per sack.

This goly and county has pleuty of men and mother—men who could be induced to

This soly and county has plenty of mental money—men who could be induced to locate on and invest in coast country lands and engage in stock farming in West and Southwest Texas. During the coming fair would be a very good time to start the educational work in this section.

The men and money secured from Macon country, Binols, by the Louisiana land owners cost an effort on the part of the latter. The men and the money to develop the vacant lands in Texas and Louisiana are both to be had in Illinois and Iswa, but to seems them we will have to keen before the public our predicts and printed information; also keep our lands at fair and reasonable prices. John Howard.

### STORIES OF WEALTH In the Land About Liano Are Told at

Austin. Austin, Texas, September 7.-Stories of

eaching here every day, and it is believed hat within a short time a big "find" will tura its attention to that part of the

tura its attention to that part of the State.

Mr. C. C. Wilson, a well known insurance man of Fort Worth, made a big investment hast spring of a large tract of land about twenty miles from the town of Llane and has just closed a deal with a big smelling company under the terms of which they are to put in a plant that will take out thirty tons of ore a day. Mr. Wilson is confident that he has two er three good rulns of gold on his land, and has a goling to spend his money and push the development as rapidly as possible. The log copper plant which is operating in the Burnet territory is turning out great quantities of copper one every day, and people who know what they are talking about say that there is a great deal of gold mixed with they can separate the gold from the copper and are retaining every bit of ofe until they can install a plant that will separate it.

until they can install a plant that will separate it.

A gentleman residing about ten miles from Burnet sent a sample of ore to a well known smelling firm in Culifornia not long aga. About ten days afterwards a neat, well dressed man registered at a Burnet hoter from Culifornia and of course all of the prospective miles owners were all agon as to the object of his visit. The stranger want to a livery stable, procured a team and drove out to the land where the sample of ore was found and immediately closes a deal for the tract, which consisted of twenty-sole acres, and under its terms if he finds gold at a certain depth he is to pa, \$10.000 for the tract. He put \$1000 in the bank to hold the bargain, and says that according to the surface indications the land will be his before many months. A big find of gold is bound to be made in that section of the country one of these days, and when it comes it will startle the entire State, and the rush to Cripple Creek will be equaled in Texas.

# SCHLEY INVESTIGATION.

Calamity to the President May Alter Plans.

Washington, September 7.-There is possibility that the calamity to the president may after the plans for holding the Schley court of inquiry. Acting Secretary Hackett said tonight that the navy department would not immediately consider the question of postponing the meeting of the court, but the developments of the next few days would determine the matter. He added that the anxiety for the president's life was the only matter that could be thought of at this time.

It is considered probable that in case of the president's death between now and September 12, the date set for the inceting of the court, the meeting will be postpaned. If Mr. McKinley should continge in a critical condition and be dangerously ill on the 12th the court will probably meet and immediately adjourn. dent may after the plans for holding the

# BOMBARDMENT IS IN PROGRES

Important Town on Colombian Coast Sub jected to Attack.

VENEZUELAN FLEET IS DOING THE FIRM

Rio Hacha the Place Where the Attack Is Bein Made-The First Open Act of War on the Isthmus.

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

Washington, September 7.-The Colombian legation has just received the he lowing cablegram: "Willemstad, Curacoa, September 7.-Venezuelan fleet is bombarding a

Dr. Becerra formerly was Colombian minister in Washington. Rio Hacha is an important town of the north coast of Colombia. This bea

bardment appears to be the first open act of war on the isthmus. The Cojonile legation is in receipt of a dispatch from the minister of foreign affairs at a gots which says that new invasions from Venezuela, Ecuador and Nicaragus to announced. The minister declares that Colombia continues to be pacific to strictly neutral and that Colombia condemns the rebel invasion of Garbiras he 

### CAUSE OF THE BOMBARDMENT.

Venezuelan Fleet Expected to Make a Juncture with Colombian Rebels.

Washington, September 7.—Dr. Breecerfa, t present is in Willemstad near the scene of operations looking after the interests of his government. The bombardment is regarded by the Colombian authorities as unmistakable and open act of war, 1810 Hucha is in the northern portion of Vene-

in question, but the queen regent of Spain awarded it to Colombia as an arrangement three years age, and this has been accepted by both countries.

The information reaching the Colombian legation shows that the Venezueian fleet expected to make a juncture at Rie Hachawith a considerable force of Colombian rebels. But this force was dispussed and the town strongly garrisoned by government troops. When the Venezueian ships arrived at the post they falled to make the expected juncture and instead found the Colombian troops in possession. This, it is asserted, has brought on the bombardment new reported.

It is said that the place is chirchy important as a base of operations, the important cities of Santa Maria and Barangalila being a short distance further west.

### COLOMBIA EQUIPPING TROOPS.

New Outfit of Mauser Rifles and Am-Ne wYork, September 7 .- Senor Artura De

Brigard, consul of Colombia in this city, was advised from Paris today that the Colombian government had just purchased \$3.000 Mausers and a million currenges. This is the largest purchase of war material by a South American republic in yeveral rears and has caused the impression that Colombia is, the Tribune will say to morrow, preparing for a war with her enemies. Venezuels and Ecuador. Consul General De Brigard explained that these munitions are to be used against the government, he said, was determined to put an early end to the insurrection.

Austin, Texas, September 7.—Up to the computation of the computation as many counties have tax relis from as many counties have a relis from as many counties have in property valuations over last year. May be a support the counties which show a described in the interior of the country. The government, he said, was determined to put an early end to the insurrection.

WHAT TAX ROLLS SHOW

NEARLY ALL OF THEM SHOW! INCREASE IN VALUES. .

How West Texas and the Panhan

Are Growing-Revenues of the State. Austin, Texas, September 7 .- Up to b

The Panhandle and West Texas cours have made a decided increase over the p year; in fact, for the past two cein; Panama and Colon Are the Next Points for Conflicts.

Washington, September 7.—The Colombian legation tonight received the following telegram from the acting governor of Panama: "We are expecting simultaneous attacks on Panama and Colon."

It is explained at the legation that it is feared the Ecuadorean expedition, aided by Nicaregua, will attack Panama while Venezuela assalls Colon.

The legation also received a dispatch from the secretary of war at Bogota saying that Colombia accepts the friendly mediation of the United States.

MACHIAS ORDERED TO BOCAS.

Iowa Arrived at Panama and Ranger Ordered Back to San Francisco.

Washington, September 7.—The navy department has ordered the guiboat Machias, now at Colon, to Bocas del Toro to look after American interests in that quarter should it appear that any such are in need of projection.

The battleship Iowa has arrived at Panama. The Ranger, now at that place, has been ordered back to San Francisco.

BATTLESHIPS ON THE MOVE.

North Atlantic Squadron Now Coaling at Newport News, Va.

Newport News, Va., September 7.—The North Atlantic Squadron Now Coaling at Newport News, Va.

Newport News, Va., September 7.—The Point Station.

Adouth in the future will not distinct the following telegram and bounds and the provenies to a greater every fair, and the planting the people of the State that West Texas are law than a state of projection.

The battleship Iowa has arrived at Panama and building up every year, all is just beginning to dawn upapeople of the State that West Texas are law than a special provenies to a greater every fair, and the planting the people of the State that West Texas are law to the provenies to a greater every fair, and any instances they would push the provenies to a greater every fair, and be provenies to a greater every fair, and any instances they would push the provenies to a greater every fair, and any instances they would push the provenies to a greater every fair, and be provenies to a greater every fair, and be could find the right kind of l

A drouth in the future will not driet people from their homes, as it has destroy the past, for the reason that nearly of farm has a bored well with a wall and water is always plentiful. According to a statement made by a well known handle man, "Keep your eye of we Texas and my part of the State."

The revenues of the State will not be large next year as they have this, to large next year as they have this, a kew oil field is discovered or some of the kind turns up that is at pression for the kind turns up that is at pression for the kind turns up that is at pression for the formation of the kind turns up that is at pression in the way of finances for the foverament, as it is openly asserted the capacity of the same of the same of the first the last the pression of state, why it has simply based thinking mind which has always are with the affairs of the State. Besides usual line of charters, which come is year as the business interests the purpose of prospecting for distinct the propose of prospecting for distinct the propose of prospecting for distinct the propose of prospecting for distinct the fees charged for issuing election cates, notary public and military exists. This, of course, comes in other year, but it hit it right just time. The State has plenty of many which to take care of the government, from now on it looks as if there in excuse for Texas to ever get mancial straits.

It is the desire of the government for the most two years, but some in some cates and and openly assert that the share more money than it knows that more money than it knows that more money than it knows do with.

LETTER CARRIERS ADJOURNED a new oil field is discovered or something
